## Protect Customer Data and Your Brand Reputation

Today's business climate moves and changes fast and is highly competitive.  Whether you are running a small business or a global enterprise, protecting your data and mitigating risk is a responsibility not to be taken lightly nor can you do this alone. The 1440 Security Compliance Services team can help you maintain your competitive advantage and protect your business from sensitive data loss and achieve compliance with regulatory policies and regulations.

At 1440 Security, our team of experts help our clients meet their challenging compliance standards. Our hands-on experience and background in security consulting and managed security provides a strong business model  to help address your regulatory requirements including PCI, HIPAA, Data Privacy, NIST, SOX, and others.

## OUR SERVICES

### Risk Assessments (PCI, HIPAA and others)

A 1440 Security Risk assessment will help you meet compliance obligations and gain an understanding of your exposure to threats and vulnerabilities. Identify risks and prioritize risk mitigation for your key assets and systems, policies, procedures and controls across business units.

### PCI Compliance

We are experts in PCI compliance and how it can help your business become more secure. We have services and technologies for organizations of all sizes that cover every aspect of compliance to help you achieve and maintain compliance, and experts on staff to help you to navigate the process.

### Security Awareness Education

Built on the Gartner leading KnowBe4 platform our services will train your team to recognize and avoid falling victim to the increasingly sophisticated phishing attacks.  We offer a free test to find out what percent of employees are Phish-prone and can follow up with a training, monitoring and reporting campaign tailored to your specific needs.

## BENEFITS

1440 Security has the expertise to ensure you are mitigating risk and ensuring data security at each step of compliance mandates. Our work for payments industry compliance is extensive and we also provide cross-industry services and compliance security programs for businesses of all types.

### Manage Risk

Our goal is to ensure that we are mitigating risk for your business.  Our services are designed to identify and manage risk, understand what is really important to your business and make sure we address what is needed.
